

NUVA COR

DRY ERASE MARKER BOARDS

ADVANTAGES:

- Unlike most commercially available Marker Boards that within a short period of time ‘Ghost’ previous marker entries because of ink absorption into the surface, Nuvacor’s Dry Erase Marker Boards remain pristinely clean
 - Because of Nuvacor’s inherent inert non porous surface, our Dry Erase Boards with proper cleaning and maintenance will look as clean in 5 years as they do today
 - Pre-Printed information on our boards is within the surface of the Nuvacor and is NOT surface printed
 - Infinite variety of Pre-Printed information in Black & White, Color or combination available as required by client needs
 - Corporate Identity Logo can be included into the board with Art Work supplied by client
- 

- 
- Small minimum order requirements for boards with Pre Printed Information
 - Minimum Order: 10 Boards

OPTIONS:

- Our standard board uses our Proprietary Surface Coating treatment which ensures a long term abrasion resistant surface which helps keep the board clean and sanitized. Naturally does not allow for the sustainability of bacteria and virus.
 - We also offer a Microban® infused monomer guaranteeing a Marker Board that will inhibit the growth or sustainability of viral pathogens on the surface of our boards. Microban® Technology licensed through Microban Corporation
 - Infinite number of sizes available depending on client needs. Master sheet sizes are 48" x 96" and 51" x 100". Thicknesses from 1/16" up to 1/2"
 - Standard Background Color is White. Unlimited Background Colors are Available.
 - In Pre Printed Boards, standard Print Color is Black, Unlimited Print Colors are Available
 - Special Order Transparent Colorless Boards are available
-

ENVIRONMENTALLY CONCIENTIOUS & LEED AWARE

- Why ask an end user to spend thousands of dollars removing old Marker Boards which entails filling in holes and repainting patched wall surfaces prior to then having to install new Marker Boards?
 - Save the Landfills from thousands of used Marker Boards that when replaced end up as Non Recyclable Solid Waste
 - For a Fraction of the cost of removal and replacement simply Peel & Stick a new Nuvacor Marker Board over an Old Tired Less than Clean Looking Board
 - At a time when we are all focused on LEED issues and environmental stewardship, the ability to offer a renewable solution that doesn't produce non recyclable waste as well as a long term technically beneficial & quantifiable answer to a problem is unique
 - An Idea that gives the Concept of Renewal, Environmental Friendliness and LEED Awareness a New Meaning
-
- ACTIONS ALWAYS SPEAK LOUDER THAN WORDS
